PROFESSIONAL EXPERIENCE

Java Backend Developer with 3+ years of experience in Java, Spring Boot, Microservices, and RESTful API development. Expertise in designing, developing, and maintaining scalable backend systems for fintech and data governance platforms. Strong knowledge of software design principles, database management, application security, performance tuning, and distributed systems. Proven ability to deliver reliable, high-quality solutions while collaborating effectively with product, engineering, and QA teams in Agile environments.

TECHNICAL SKILLS

- Languages: Java, JavaScript, Angular, HTML/CSS
- Backend: Spring Boot, Spring MVC, Spring Security, Spring AI, Spring Batch, JPA, Hibernate, REST APIs, gRPC, RabbitMQ, Thymeleaf, JSON, XML
- Databases: PostgreSQL, MySQL, Redis, Elasticsearch, Hazelcast
- Cloud/DevOps: AWS, Docker, Jenkins, Git, GitLab, Maven, Linux
- Testing/Tools: JUnit, Mockito, Postman, Swagger, Jira, Kibana, Newrelic, Grafana, ChatGPT, Cline, Claude

PROFESSIONAL EXPERIENCE

Development Engineer

PROSPECTA Software Pvt. Ltd.

Oct 2024 – March 2026
Gurugram, Haryana, India

- Built automated workflow solutions reducing manual effort and maintained scalable Spring Boot microservices.
- Developed REST APIs using Spring Boot for real-time and bulk data synchronization.
- Integrated gRPC services to fetch and synchronize the latest master data.
- Resolved production issues, optimized performance, and improved application reliability through logging and exception handling.
- Designed and enhanced REST endpoints for record synchronization and workflow operations.
- Developed Spring Boot REST APIs for notification management and retrieval.
- Participated in code reviews, unit testing, and deployment support following Agile development practices.

Software Developer

Clayfin Technologies Pvt. Ltd

May 2023 – Sep 2024
Bengaluru, Karnataka, India

- Developed REST APIs and integrated backend services for banking applications.
- Collaborated with product and QA teams to resolve production issues.
- Designed scalable solutions supporting long-term platform growth.

PROJECTS

MDO FUSE (PROSPECTA Software) ([Live URL](#))

- Developed scalable backend microservices for enterprise master data management platform.
- Built workflow engine for automated approvals, data requests, and rule-based decisions.
- Developed XFUSE framework for secure Excel-to-ERP data synchronization.
- Optimized APIs and database operations using Redis caching and SQL tuning.

Brack Bank Web Application (Clayfin Technologies) ([Live URL](#))

- Developed backend services for customer onboarding and banking transactions.
- Built REST API integrations and optimized JPA/Hibernate persistence layer.
- Managed deployments and CI/CD using GitLab and IBM WebSphere.

Blog Application (Masai School) ([Source Code](#))

- Developed secure blogging platform using Spring Boot and Spring Security.
- Implemented pagination, search, role-based authentication, and REST APIs.

EDUCATION

Full-Stack Web Development - Full Time, Masai School, Bengaluru, Karnataka (Grade A)

Jan 2022 - Feb 2023

Bachelor of Computer Applications, SRTMUN, Maharashtra (9.21 CGPA)

Jul 2018 - Aug 2021
